

Glasstec Dusseldorf, Germany 2010

ACSI Representatives from both the USA and United Kingdom offices met for several days in Düsseldorf Germany for Glasstec 2010. The conference and exhibits, located at Messe Düsseldorf, were conducted September 27th — October 1st.

Attendance included 45,000 visitors and 1,274 exhibitors. Well over half the visitors, travelling to Düsseldorf, came from abroad.

Main product areas included:

- Glass production/Production technique
- Glass processing and finishing
- Glass products and applications
- Measurement, testing and control technology
- Contracting, consulting, engineering
- Research and teaching, trade literature, trade associations and organizations

As always, we were delighted to see all of our customers and vendors as well as meet wonderful new people! See everyone again in October 2012!

Meet ACSI Europe Engineer Rob Haydon

Hometown: Swindon, England

Background: School of Hard Knocks, University of Life (Graduated with Honors and the HNC & Plessey Semiconductor Award for Electronics)

Started with ACSI: 2000

Interests: Football (the proper kind), Squash, Swimming, and Drinking

Favorite Movies: Scum, Blues Brothers, and Lock, Stock & Two Smoking Barrels

Best thing about working at ACSI: The flexibility, the people, and the project variety

ACSI Training Series: Basics of HMI Application

ACSI is now offering a 3 day training course on the basics of HMI applications at our Sylvania, Ohio location.

This training class is intended for Plant Engineers, Maintenance Technicians, and Electricians who need to maintain, troubleshoot, backup or make modifications to an existing Wonderware® InTouch(TM) Application. Trainees may bring a copy of an InTouch Application from their facility to use during class labs. (For daily training agenda please email katiemarconi@acsitoledo.com.)

Dates: Flexible

Cost: \$1,500.00 per person

Lunch will be provided daily by ACSI

71st Conference on Glass Problems

Attendees from around the world met for two days (October 19th & 20th) in Columbus, Ohio USA to discuss the latest innovations and solutions for manufacturing issues and the future of the glass industry. Paper topics included Glass Melting, Glass Science, Defects & Safety, Refractories, Recycling, Controls, and Raw Materials.

On Monday and Tuesday evenings, many exhibitors chose to host customers in their Hospitality Booths at the University Plaza Hotel and Conference Center. ACSI had their yearly Double Sided Margarita Machine and even raffled off a Samsung flat screen TV. This year's winner was Dale Weaver from General Electric! Thank you to everyone who entered and congratulations Dale!!

Join us at our Hospitality Booth next year, for your chance to win a brand new flat screen TV!

The Conference on Glass Problems is proudly sponsored by the Department of Materials Science and Engineering at The Ohio State University, Columbus Ohio.

ACSI Quarterly Newsletter Company Survey Question

One year three of my friends and I went as a group...perhaps you've heard of them? KISS!~ Dean Cable

My wife was Pamela Anderson and I was Tommy Lee (tattoos and all!) ~Ron Finch

The best costume for a guy is the versatile Monk's robe. If it's hot outside you can wear shorts underneath and if it's cold you can wear long johns and a sweater. ~Joel Helbig

In grade school I went as Wednesday Addams from the Addams Family. ~Katie Marconi

I dressed up as Marge Simpson with a blue feather boa wrapped around a towel on my head that escalated into a tall tower of blue hair. It was great because the boa had a lot of movement, although I had great difficulty riding in the car with it.....I had to slouch down quite a ways on the drive over to the party!! ~Diana Davis

Most of my creative energy is focused on my kids. One year I made my son a human mailbox costume. ~Rob Snider

One year I went as the hockey player Steve Yzerman. That night I went to a Red Wings game. Little did I know that he would get injured and they would ask me to fill in for him! I scored one goal and only fell over a dozen times! ~Greg Napierala

Hardware and Software

One question we frequently receive at trade shows is what type of software and hardware we use for our control systems. ACSI is independent, therefore unbiased and flexible in the selection of hardware and software. Depending on customer requirements, ACSI is able to use Single PLC control or Redundant PLC control. Decisions are based on fitness for use, best in class, support, and cost. ACSI always uses the best suited components to form a customer's unique control system.

Below is a list of hardware and software we have implemented:

PLC:

Allen Bradley/Rockwell
Siemens
General Electric
Mitsubishi
Schneider/Modicon
Texas Instruments
Toshiba
Honeywell

HMI:

Cimplicity
CiTect
GE/Proficy
Intellution
PlantScape
RSView
Visual Basic
Win CC
Wonderware/Intouch
iFIX
Brainwave
Model Based Control
Experion

ACSI currently has systems installed in the USA, Canada, England, Scotland, France, Hungary, Mexico, China, Thailand, Indonesia, Brazil, Taiwan, India, Malaysia, the Philippines, Vietnam, Australia, Egypt, Saudi Arabia, UAE, Chile, Argentina, Trinidad, Finland, Dominican Republic, South Korea, Venezuela, Puerto Rico, and South Africa.
